CREDIT CARD SIZED MEDIA REMOTES

Mobile Edge Slim-line PC Media Remote, Presenter Plus Remotes unveiled at CES

CES, LAS VEGAS, Nevada, - Jan. 09, 2007 - Mobile Edge, the industry leader in innovative and stylish notebook computer carrying cases and accessories, unveiled two new ultra compact RF (Radio frequency) remotes. The credit-card sized Presenter Plus and PC Media Remotes share the same form-factor as a PCMCIA card, so either device can be stored and transported within your notebook computer's PC card slot. Road warriors will never forget their remote again.

Both Slim-Line remotes use patented 2.4GHz RF technology, and have a wireless range of up to 100 feet away. Unlike traditional IR (Infra-red) remotes, there are no line-of-site limitations because obstructions do not block the signal. Given the popularity of the Slim-Line Wireless Presentation Remote, we have added these new remotes to round out the Slim-Line Wireless family of remotes. All three remotes are USB plug-and-play.

"These remotes are the ultimate business tool for today's on-the-go lifestyle. They're slim, light, sleek and extremely user-friendly," said Chuck Gangi, vice president of retail sales for Mobile Edge. "Both presenters allow you to be in complete control of media applications and are small enough to tuck away within your computer or pocket when not in use."

The compact PC Media Remote enables you to wirelessly play DVDs, CDs, Videos and Audio files. Enjoy movies, play videos and listen to music all from this slim, sleek and versatile remote control. The Media Remote works with Windows Media Player® 10 and earlier versions, iTunes® for Windows, WinDVD® and DVD Player for Mac.

The Presenter Plus is the pinnacle of the Slim-Line wireless family of remotes. It has the functionality of both the PC Media Remote and the original Slim-Line Wireless Presentation Remote rolled up into one. Wirelessly control PowerPoint presentations, Windows Media Player® 10 and earlier, WinDVD® and iTunes® for Windows. The integrated laser pointer adds to the functionality expected in a professional presentation tool.

All three remotes are currently in stock and shipping from Mobile Edge. The PC Media Remote (model #MEAP03) has an SRP of \$59.99. The Slim-Line Presentation Remote (MEAP01) has an SRP of \$79.99 and the Slim-Line Presenter PLUS (MEAP02) has an SRP of \$99.99. Mobile Edge continues to expand the accessory and carrying case category by offering new, innovative and fresh designs that fuse fashion trends with form and function, creating a brand that makes a statement about today's business and mobile lifestyle.

About Mobile Edge
